**iPhone VT** secure mobile payments any time, anywhere

## Key Benefits of WorldNet's iPhone Virtual Terminal

- 1 Ease of Setup** One time setup. You don't need us, but we're here on the phone
- 2 Ease of Use** User interface designed for fast data entry of payment details
- 3 Security** No payment card details are ever stored on your phone
- 4 Fraud Prevention** Full encryption of payments, plus support for CVV/CVC/CVN
- 5 Flexibility** Secure mobile payments any time, anywhere

### I like it, now how to I get one?

Follow the 3 Steps below to getting live with the WorldNet iPhone Virtual Terminal

#### Step 1. Contact WorldNet

Let us know you plan to use the iPhone Virtual Terminal, so we can get you set up on our systems. Give us a call, or send an email – contact details are below, or on our web site.

**Pre-Register for the Special Introductory Offer: Get Activated for €95** (offer valid until 31/03/10)

#### Step 2. Download iPhone Virtual Terminal from App Store or iTunes

Launch iTunes, visit the App Store, search under "Worldnet", download the Virtual Terminal application to your iPhone.

#### Step 3. Get a Merchant Account

The iPhone Virtual Terminal does require an internet merchant account from an approved Acquiring Bank. If you already accept card payments, no problem! If this is the first time you will accept payments, we can direct you to an Acquirer to get a merchant account set up.
